

We need Water and Rain

Lyrics & Music Freddy Zucchet

featuring **Rudiger & Claire Namayanja**

**For life it's a main
We need Water and Rain
Over and again**

Verse 01

By looking at the sky so much
Their eyes end up burnt by the sun
Hello Hello
Simply let it flow

By trampling so much on the earth
Barefoot among only rocks and dust
Hello Hello
Simply let it flow

**For life it's a main
We need Water and Rain
Over and again**

Verse 02

If you weren't born in a green country
Rocked by a fountain, its sweet melody
Hello Hello
Simply let it flow

Look at the folks in wavy heat lines
Following their ancestors, in the footsteps of time
Hello Hello
Simply let it flow

Instrumental

Verse 03

Listen to the cries in the empty sky
The hot wind blast has made their throats so dry
Hello Hello
Simply let it flow

When night falls, in their eyes no pain
The stars are getting bright and the light rains
Hello Hello
Simply let it flow
